

ABOUT US

Founded in April 2019, Movement Evolution Scotland CIC is a Community Interest Company, not for profit organisation. We are determined to ensure that children have the opportunity to access quality movement education and a variety of sports which will encourage them to discover a lifelong love of physical activity. By creating environments which promote learning through fun and freedom, young people can develop their athletic ability and grow to become socially skilled, confident, healthy individuals.

Our current priority is the building and development of [The Movement Bothy](#) in Banchory, Aberdeenshire. It will be a home for a wide range of regular classes for all ages, as well as movement experiences such as Birthday Parties and Holiday Camps. Importantly it will allow the creation of environments that challenge and develop critical movement skills for the development of healthy individuals. In particular, the development of athletic skills such as clambering, climbing, swinging, jumping and the ability to balance. [Movement Evolution Performance](#) is our programme for youth athletes who aspire to excel in their chosen sports supporting them with much needed support services in particular Strength and Conditioning coaching. [The Movement Evolution Academy](#) is the learning and development thread to the organisation, aiming to develop better movement education coaches, teachers and leaders. [Movement Evolution Scotland](#) continues to deliver Pop Up movement experiences throughout the North East of Scotland both standalone and in partnership with other youth organisations and hopes to launch a bursary scheme to ensure all children and young people have the opportunity to access quality movement education regardless of economic background.
